Evacuation Chair

The comprehensive evacuation solution

Emergencies arrive unexpectedly. In that moment, preparedness is key. Are you prepared to evacuate occupants from your facility when facing an emergency?

Stryker's Evacuation Chair gives you the ability to evacuate disabled occupants weighing up to 500 pounds (with two operators), from multilevel facilities in emergency situations.

The patented Stair-TREAD™ system assists in an easy descent down stairs by a single operator, with passengers weighing up to 200 pounds. Our extendable head and foot end lift handle design supports proper ergonomic lifting technique, while improving line of vision to feet and steps when lifting the chair on stairs or over obstacles.

Features and benefits

- Assists in evacuation of disabled occupants from multilevel facilities
- Stair-TREAD system enables one person to control descent down stairs for passengers weighing 200 pounds or less
- Helps comply with fire safety requirements and emergency response guidelines
- Extendable head and foot end lift handle design supports proper ergonomic lifting technique, while improving line of vision to feet and steps when lifting the chair on the stairs or over obstacles
- Designed to maximize mobility in tight spaces
- Folds to compact size for convenient storage

The Evacuation Chair folds and stores in compact spaces.

Restraints

with Fastex® buckles for passenger security

Contoured seat for comfort

Foot end lift handles extend for ergonomic lifting

Foldaway foot support provides additional passenger security and stability

Upper control handle

extends to be ergonomically positioned for optimal operator control

Head end lift handles

extend for upright lifting posture

Stair-TREAD system

Allows operator to control movement down stairs without lifting which may help to reduce the risk of lower back disorder.¹ The dual treads, made with Kevlar®, stand up to tough use and assisted descent.

Optional Aggressive Stair-TREAD belt available

The Aggressive Stair-TREAD belt is designed to improve the grip of the Stair-TREAD system on steps that have a smooth surface with a rounded edge. To determine if the Aggressive Stair-TREAD belt is appropriate for your application, please contact your local Stryker sales representative.
